What's New in the New CHEVROLET SIX

The Lowest Priced Car Combining Synco-Mesh Shifting with Free Wheeling

With Sifted Synco-Mesh you enjoy dash-less shifting at all speeds—back and forth—no matter whether you are "in" free wheeling or not. When descending a steep hill you can shift rapidly from high to second and gain the full braking power of the engine. Chevrolet's Free Wheeling enables you to coast, free from the drag of the engine, when you lift your foot from the accelerator. And you can shift gears with never-to-be-forgotten ease!

A Popular New Note in Fisher Body Styling

A new ultra-modern silhouette is gained by slanting the windshield at a smart new angle—streamlining the front body pillars—and utilizing the distinctive style points of today's finest cars. Interiors have rich new upholstery, handsome chrome-plated fittings, adjustable sun visor, finger-touch adjustable driver's seat, and a convenient ash-tray on the dash. Striking features include deeper radiator with built-in grille, arched double tie-bar, bullet-type headlamps, adjustable hood ports.

A GENERAL MOTORS
VALUE—PRODUCED IN CANADA

CS-24

The new Chevrolet Six may be purchased on easy G.M.A.C. terms. Lasting satisfaction is assured by the General Motors Owner Service Policy.

Hockey News.

Young Mr. O'Wudel took his hockey team No. 3 up to Onoway on Sunday afternoon and played their Junior team. After a very valiant battle, his team succumbed to the home team by a small score.

Young Mr. Wudel had a very busy afternoon, as besides running team No. 3 he was goalie for the girls' team, which played in Onoway the same afternoon. The other young ladies were: The Misses Erverson, Esther, Dannbauer, Mildred, Michael, Christina, Eiler, Ida Zucht, and Esther Wolfe. After a full-time play the teams were tied—0 0.

Louie Miller's team won their game at Wabamun on Sunday by a score of 5 goals to 3.

The game at the Zucht rink on the 21st between Tigers and Wabamun resulted in a win for Wabamun by 2 goals to 1.

The Tigers play at Onoway tonight, this being their last game with that team. If the Tigs win tonight, this will move them up from last place to third, in the League standing.

No Moratorium for Alberta.

After a three-hour discussion, delegates at the U. F. A. convention turned down the resolution calling for a provincial moratorium. The resolution was defeated by only 4 votes—the poll standing 99 to 95. In defeating the resolution, the convention had adopted the advice Premier J. E. Brownlee had given them in an address the evening before the vote was taken. Premier Brownlee had stated that a moratorium would destroy the farmers' credit.

The delegates then adopted a resolution asking Provincial Gov't to extend the scope of Debt Adjustment Act so that dispossession of debtors be made impossible without recourse to the Act.

Be-whiskered Delegates

It must have been a fashion reporter or the walking delegate from the hair-dressers' society that got loose at the United Farmers' convention last week, and gave an Edmonton daily the following statistics regarding the hirsute appendages of the delegates attending:

1 out of every 5 was adorned with a mustache;
2 out of every 5 had white or gray hair;
1 out of every 8 possessed a bald spot;
Farmers numbering 519 were counted;
14 had full whiskers and beard complete;
Mustaches numbered 124, ranging from little black patches to full size bristly "walrus" hirsute equipment.
Clean-shaved faces totaled 355;
Bald spots 78.

In Times Like These

In the course of the more or less extensive reading in which every man in newspaper work must engage, our attention was attracted by a magazine article bearing the title "In Times Like These," written by former U.S. President Calvin Coolidge. Coming from the pen of such a noteworthy man we felt assured that it would be a worthwhile article. We were not disappointed, and have decided to pass on to the circle of readers of this weekly column some of the thoughts expressed by the only living ex-President of the United States, in the hope and expectation that they may be found helpful and provide encouragement to others.

Mr. Coolidge expresses the opinion that one of the serious results that come from the experience through which the world has been passing for the past two years is "loss of faith," and he proceeds to show that if a man but keeps his faith, regardless of anything, and everything that may happen, there is still a bright future before him.

The difficulty is that because some have put their trust in things which they have found do not always endure, they draw the hasty and unwarranted conclusion that it is useless to have faith in anything. Furthermore, there is a tendency, and it is easy, to conclude that whatever disasters may have overtaken an individual for him, to conclude that they have arisen through no fault of his own; rather that it is the fault of someone, and he is inclined to blame something he loosely calls society.

It is true that some have lost through the dishonesty of others. Many more have lost because they were tempted to take large risks in the hope of making large gains. Some did make large profits, but many more suffered heavy losses. Frankly, it must be said that those who trust to chance must abide by the results of chance. They have nobody to blame but themselves.

In Western Canada, however, probably the larger number of losers are to be found in Mr. Coolidge's third group, those who have sustained losses notwithstanding the exercise of their best judgment and through causes beyond their own individual control. But this simply means that everyone should know: that even when surrounded by all the safeguards and all the integrity which is possible to secure, the ownership of property involves a risk. The man who has nothing runs no risk; it is the man who has property who is liable to suffer. Nevertheless no sane person prefers to be the former rather than the latter.

The man who owns a house may lose it by fire, by flood, by a devastating storm. A man's livestock may sicken and die. A man may lose his crops by drought, or hail, or insect pests. World conditions may force prices to a below-cost-of-production basis. He cannot help these things, but that does not excuse him from making the most of what he has. "The great fact of life is uncertainty," as Mr. Coolidge points out. The only thing we can do is to recognize the uncertainty and govern ourselves accordingly.

It might be a great personal comfort if we could lay all the blame for our misfortunes upon some source outside ourselves. That is why it is easy to convince some of us that we have not failed, but society has failed. But while there is a relationship of all of us, which we term society, that differs from each of us, just as a house differs from the individual bricks in it, yet people are not bricks, and moral responsibility cannot be shifted to others. If we are to be free to make our own choices in life, we must take the risk of being responsible for the results.

If we could lay the blame for present conditions in the world on society at large, against whom is the blame to be assessed? It is impossible to point out any general moral lapse, any widespread dishonesty. We may say it is the result of greed and selfishness. But what body is to be specifically charged with that? Were the wage earners too greedy in getting all they could for their work? Were the managers of enterprise, big and little, too greedy in trying to operate at a profit? Were the farmers too greedy in their production, or in co-operating to get higher prices for their products?

No, the most we can say is that there has been a general lack of judgment, so widespread as to involve practically the whole world. Each and every one of us must assume our full share of responsibility for that lack. We have found out that we were not so big as we thought we were. We were riding too high. We shall have to keep nearer the ground. We may not feel so elated but we shall be much safer.

We must realize that the best recipe for financial security is to live within our means. That is our ancient faith. We have found nothing better.

We must re-learn the old Biblical admonition: "Thine own right hand can save thee." We must realize that Governments are not all-powerful, that present relief measures are but a crutch to help us for a moment when we cannot otherwise help ourselves, but that our salvation, our whole future, rests with us as individuals.

There is no power that can absolutely guarantee us economic security. We think we want relief from toil and worry, forgetful that our real satisfactions are in our achievements. If we will but make the effort to develop them, if we will apply ourselves faithfully to our tasks, we shall all find we have powers we did not know we possessed.

The total value of building and construction awarded in Canada during 1931, as compiled by MacLean Building Reports, Limited, amounted to \$315,482,000. Ontario led all the provinces with \$125,452,300, or 39.8 per cent. of the Dominion total. Quebec comes next with \$106,125,700 or 33.6 per cent.

It has been estimated that Colombia's waterfalls could be harnessed to produce more than 4,000,000 horsepower.

The total expenditure by the different Provinces of Canada on main provincial highways during the year 1930 was \$34,592,759.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Storms, R.R. 5, Picton, Ont., writes: "I was troubled with palpitation of the heart; couldn't sleep, day or night, and was so weak I could hardly get around. After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks. My mother also has great faith in them and finds no other medicine can help her so much for heart trouble. I can assure you that Milburn's Heart and Nerve Pills are a wonderful builder."

Astrologer Makes Some Unpleasant Predictions

Says 1932 Hard Year For Cattle and Married People

Prof. Gustave Meyer, of Hoboken, New York, who describes himself as "the nation's counselor and American scientific astrologer" cast his eyes heavenward, added up several rows of figures and predicted that 1932 is going to be a tough year for cattle and married people.

In scanning the planets for his annual first-of-the-year forecast, Professor Meyer considers that Japan and China are going to have much trouble, and that Japan will get the best of it in the long run. He feels that prohibition is going to have "a terrible time" during 1932, that prosperity is coming back to stay, that Colonel Lindbergh and Henry Ford had better watch their step in February and that next Fall there will be plenty of rain, snow, hail, thunder and lightning, floods, earthquakes, bank failures, broken legs and stomach trouble.

Among those who will suffer during the year, according to the professor's charts, are theatrical people, hotel, and restaurant people, steamship people, bull traders, naval officers and cabinet members.

Those who will enjoy good luck include literary people, scientific people, astrologers, mining men, real estate agents, President Hoover, soldiers, diplomats and all the unemployed.

Stockmen Elect Officers

Meeting Of Canadian Livestock Co-Operatives Held At Saskatoon

W. A. Amos, of Palmerston, Ontario, was elected president of the Canadian Livestock Co-Operatives at a meeting of the directors held at Saskatoon. He succeeds W. D. Mackay of Saskatoon. Roy McPhail, Brandon, was elected vice-president of the organization.

Directors for the provinces are: Alberta—J. E. Evanson, Taber; Saskatchewan—W. D. Mackay, Saskatoon; Manitoba—Roy McPhail, Brandon; Ontario—W. A. Amos, Palmerston; Quebec—J. T. Desmarais, Montreal; Maritimes—J. McClellan, Prince Edward Island.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexion of exquisite charm. Adds a subtle finish to the daintiest woman. Invaluable for softening the hands and making them flawlessly white. Cool and refreshing. Daintily fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Real Benefit To Farmers

Shipping Club In Quebec Markets Produce To Advantage

A fine example of the real benefit to farmers in getting together to market their products is afforded by the results obtained by the Campbell's Bay Shipping Club, of Pontiac County, Quebec. This year to date the club has marketed 250 head of cattle, 250 calves, 1,150 lambs, and over 12,000 pounds of dressed poultry, representing cash returns to the farmers of that district of well over \$15,000. The Federal and Provincial Departments of Agriculture have co-operated effectively in making the scheme the a success.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Cannot Hoard Gold

Viennese who have taken to hoarding gold in their mouths in the form of fillings, crowns and bridge-work have bitten off more than they can chew. Firms which cast gold bridges and similar material for dentists, have been doing a good business lately. The National Bank, which now has the sole right to sell gold, says temporary fillings will have to do until the gold crisis is past.

New Ideas For Cars

Many Advanced Methods Will Feature Automobiles Of Future

The automobile industry, in its quest for new features to intrigue the buying public, spends millions of dollars annually in experimentation on advanced methods of automobile construction. Many of the ideas which result from the extensive research of the industry's engineers seem radical at first glance, but are a forecast of what may be expected for future automotive transportation. Among the many possible developments discussed in engineering circles is such a startling suggestion as a "gasolineless" waterless car, propelled by radiated electricity. Another unusual proposal calls for the use of an airplane type of construction for cars, with large fenders and a combined roof and wing structure lifting a considerable amount of weight from the road, and with propulsion furnished by a propeller.

Drop In Living Costs

Reduction Of Fifteen Per Cent. During Last Two Years

Cost of living has dropped by over 15 per cent. during the past two years, the Dominion Bureau of Statistics reports. This is the second largest decrease among the leading nations of the United States leading with a drop of 16.5 per cent.

Germany ranks third with a 12.9 per cent. drop, Great Britain fourth with 9.6, and France fifth with 8.9 per cent. One of the reasons Canada, United States and France rank so high is the extensive agricultural developments of these countries.

Toothache and neuralgia are instantly relieved with Douglas's Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

Land and Water Ferry

Hotel guests at Devonshire, England, now use a ferry that travels on land or sea. It is equipped with tractor wheels for land, and a propeller is driven off the tractor motor to drive the ferry through water.

In 1897, the first rafts of pine cut in the Ottawa Valley reached the city of Quebec.

Man Without a Country

Fittable Flight Of Negro Who Was Deported From Canada

Chained to a grating in the hold of a ship in port, where he has remained for more than a month, is another man without a country.

He is Cecil Jafes Scott, 29-year-old negro deported from Canada and unwanted in his alleged homeland of Bermuda. He was put aboard the steamer "Borsard" at Halifax, and when permission was refused to land him at Bermuda or Demerara where the authorities had no information concerning him, the only alternative was to bring him back to Canada. Having previously been deported from the Dominion, he was refused admission when the "Borsard" arrived at St. John, and now the captain and immigration officials are wondering what they shall do with the passenger.

The steamer's owners are liable to a \$1,000 fine if the deportee escapes. So "down below," in an improvised cell formed by a grating, is the "man without a country," his right wrist fastened to the steelwork and a blanket serving for a bed.

Complete in itself, Mother Graves' Worm Extremator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Ship Fox Skins

Seven Thousand Pelts Leave Quebec For London Market

During recent days 7,000 fox skins have been shipped from Quebec to be placed on the London fur market, according to information given out at the office of the Co-Operative Fur Animals Raisers of the province of Quebec. This shipment of skins, the largest ever sent out from here, is valued at \$200,000 and consists only of skins of the best quality.

In the face of orders on hand at present, Co-Operative officials say, it is probable that an additional 15,000 skins will be placed on foreign markets in the very near future.

HUNTER-MARTIN & CO., REGINA, SASK.

Says Farmers Should Pay More Attention To Marketing Instead Of Concentrating On Production

Expressing the belief that the next 25 years would see the emancipation of agriculturists from domination by bodies outside themselves, H. S. Arkell, secretary of the Canadian Live-stock Pool and president of the Canadian Society of Technical Agriculturists, speaking at a gathering of the latter organization at Saskatoon, asked their assistance in that regard.

The society had made great strides since it was formed in 1921, and now included most of the technically trained agricultural men of the Dominion. In the past the members had chiefly concerned themselves with their own jobs and the co-ordination of work done under different authorities to make it efficient. They had accomplished a great deal in that direction.

But Mr. Arkell believed the time had come for the society to turn its attention to study the condition of agriculture. It was for the betterment of agriculture that they had received their training.

From the point of view of the farmer, the selling machinery under the old methods had failed them, the credit machinery had fallen down and they would find that the majority of farmers believed that the technical machinery of agriculture was failing to accomplish the purposes of the farmers.

Agriculture had taken care only of production and left someone else to take care of marketing. In all other businesses an increasing proportion of the brains was devoted to merchandising. Something should grow up in technical agriculture in regard to the business end as in production.

It was planned, the speaker said, to hold the annual convention of the society in Winnipeg in June, when it might be possible to secure speakers from the economic conference.

Dr. L. E. Kirk, Dominion Agrostologist, suggested that other businesses had perhaps devoted too much attention to merchandising and persuading the people to buy what they did not want, rather than that agriculture had given too exclusive attention to production.

W. A. Munro, Rosthern experimental farm, agreed that farmers at the present time were much more concerned with what they were to do with what they had produced than with how to produce more or better articles.

Guests introduced at the gathering included: C. H. Gilbert, Big River, spring wheat champion at the Chicago show; and Andrew Anderson, Alaska, recently designated "master farmer."

Royal Palace a Public Museum
Ex-King Alfonso's former royal palace at Madrid has been opened as a public museum. For the sum of one dollar visitors are allowed to see the throne room, sitting rooms, banquet hall, the famous "Hall of Columns," where so many functions, including that of the wedding of feet on Good Friday, took place, but so far they have not been permitted to visit the private apartments and bedrooms formerly occupied by King Alfonso, Queen Ena, and the Infantas.

Neighbor: "Er—Mrs. Brown— you've got odd stockings on."
Mrs. Brown: "Yes, dearie, that often happens to ladies what 'ave got more than one pair."

"How did you get so much strength in your mouth?"
"I have exercised my teeth with your steak."—H. 420, Florence.

W. N. U. 1925

Greater Precipitation

Report Of Meteorological Service For Months Of December Is Encouraging.

Precipitation in Saskatchewan over the cultivated portion, during December, 1931, was approximately twice that of December of the normal year, according to the report of the Dominion meteorological service for the month.

In average years, precipitation in December varies from four-tenths to about eight-tenths of an inch. During December, 1931, from one inch to one and a half inches was reported over a considerable area in Saskatchewan.

In the extreme southeast and in a small area to the east of the Cypress Hills several points were exceptions, reporting less than four-tenths of an inch of precipitation received during December.

"Alberta rejoiced in precipitation that was in excess of the normal. In December from one inch to one and a half inches was reported from a considerable portion of the plains. Usually the December precipitation in these areas varies from less than one-half to about three-quarters of an inch.

A dry December was the experience of Manitoba, where most sections reported less than half an inch and some less than one-tenth.

In the majority of years, December precipitation is slightly greater in Manitoba than in Saskatchewan, ranging from one-half inch to one inch.—Regina Leader.

Apples Are Cheap Food

Essential Part Of Diet And Suitable For Every Meal

In a period like the present, when the amount of money available for food may be limited, apples are an essential part of the diet, says Miss Flora Carl, of the Missouri College of Agriculture. "Apples are suitable for every meal in the day and are often enjoyed between meals also," she goes on. "As sauce or baked, apples serve as a breakfast fruit, and with bacon or sausage they may accompany the meat dish. For dinner they are especially good with fresh or cured pork, no matter how it is cooked. They are adapted to cooking with many vegetables, as baked with sweet potatoes, fried with carrots or scalloped with cabbage. A wide variety of salads may be made from apples, either raw or cooked with vegetables, and the choice of apple desserts is almost unlimited.

A writer asserts that a man's character can be told by the books on his library shelf. Then most of our friends are kleptomaniacs.

A writer asserts that a man's character can be told by the books on his library shelf. Then most of our friends are kleptomaniacs.

Egg Exports From B.C.

Are Bringing Producers Over Five Thousand Dollars Daily

British Columbia hens are bringing into the pockets of poultry owners, as a result of growing volume of shipments of eggs outside the province, in the neighborhood of \$5,000 a day.

The B.C. Egg Pool is shipping to the prairies and eastern Canada three and four carloads of eggs weekly. Private firms are adding further shipments, which, according to G. R. Wilson, of the poultry division, Dominion Live Stock Branch, bring the total up to one carload daily.

Each carload at Montreal brings an average of \$7,000. There must be deducted from this freight charges of approximately \$850 and handling charges of five cents a dozen.

The egg industry is at present the liveliest department of agriculture in British Columbia. Distribution of \$5,000 a day among poultry ranchers is bound to stimulate confidence in the poultry industry.

Egg prices are much lower than at the same time in 1930. Production is also lower. Nevertheless, present prices are attractive to the coast poultry owners. Lower feed prices and lower labor costs help to make up for the reduced prices received for the product.

George F. Wallace, president of the B.C. Egg Pool, reports falling off of production of eggs elsewhere in Canada.

Prof. E. A. Lloyd, University of British Columbia, says that the present export of eggs is but the beginning.

"I look to see British Columbia poultrymen exporting eggs to overseas markets as well as our domestic markets," said Professor Lloyd.

France Buying Wheat

French Government Contracting For Ten Million Bushels Of Canadian Grain

Delivery has started on a French government contract to buy 10,000,000 bushels of Canadian hard spring wheat, the United Press learns.

The agreement represents a repetition of an order for a similar amount in 1930. Delivery will continue for two months.

It was understood that France expected a reciprocal concession from Canada favoring either French wines or alkalis, but no agreement has been reached.

It was estimated that France still requires 11,000,000 bushels of foreign wheat to meet the deficit in domestic supplies.

Wheat representatives were awaiting indications of whether the foreign office would continue the policy of buying Central European wheat for political reasons, or would buy the balance in the open market from Canada, the United States and Argentina.

Nearly 40 irrigation projects are to be launched in Jugoslavia in the next four years.

Scientists Hope To Procure Facts And Figures To Test The Theory That Continents Float

Sensitive To Weather Changes

Animals Are Very Quick To Notice Any Variations In Weather

Animals are amazingly sensitive to changes of weather, and some very interesting observations have been made as to how they behave under such circumstances. We have all seen the antics cats get up to when a storm is approaching. They wander recklessly to and from, and suddenly dart about the house and garden in a most surprising manner. Cats, too, wash right over their ears when rain is approaching. The following are other unmistakable signs of changing weather: In mountainous districts sheep change their feeding ground to the lee side, or side opposite the wind, of the hills before the arrival of gales and rain. Little field mice, too, appear to know when cold and snow will set in, for they have been observed to cover up their holes carefully before hard weather comes. Donkeys invariably bray lustily before rainy weather, and if bees return to the hive and do not come out again for a time rain is indicated.

Farm For Strayed Animals

Fifteen Acres Operated By Voluntary Workers In Montreal

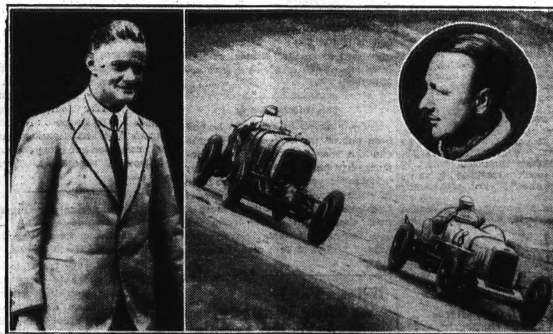

"The League of Justice To Animals" with voluntary workers operate a farm of 15 acres at Montreal, the only one of its kind in Canada, where lost, strayed or unwanted animals found on the streets of Montreal and environs are taken, and when not claimed within a reasonable time are placed with new owners. At this home there are adequate kennels for cats and dogs, stables for horses and good grazing land with plenty of shade trees. Every type of creature is cared for from goats to canaries. Horses whose owners are too poor to feed them properly are taken and within a short time returned in good condition.

In the society's six years of befriending the dumb animals, it has had four Christmas trees set up in various parks and squares here distributing hay, corn and oats to 100 horses yearly.

Noise Affects Eyesight

One person in every five in the towns and cities is wearing, or ought to be wearing, spectacles. The proportion in the rural areas is only one in every 100. An eye specialist said: "During the war one of the effects of shell-shock was a narrowing of the victim's vision. Perfect eyesight depends on perfect nerves, and town dwellers today are exposed to a nerve-shattering barrage of noise which differs only in degree from a great gun cannonade."

BRITISH SPEED EXPERTS PLAN SERIOUS INVASION OF EUROPE

An invasion by a team of British racing drivers with British cars into the most cherished preserves of Continental road racing is contemplated by a group of the best drivers in the Motherland. The Italian "Mille Miglia" 1,000-mile race, held every spring, is the only contest of its kind in the world, and last year, for the first time in the history of the race, an English car competed, driven alternately by an English and an Italian driver, neither of whom could speak the other's language. It finished successfully, much to the surprise of the Italian people. In this year's race, April 9 and 10, British drivers propose to enter a team of three cars, which would be driven by the best racing team the Motherland could produce. Sir William Morris, British motor magnate, will back the venture, and Sir Henry Birkin (right), will be one of the drivers. It is expected Lord Howe will captain the team.

Hidden away in vaults in Dominion observatories at Victoria and Ottawa

are scientific records that may prove or disprove some day the truth of the theory that North America and the other continents are not fixed or stationary. Dr. Alfred Wegener, the Austrian geologist who lost his life in Arctic exploration, laid down the theory that continents float on a sea of molten rock like rafts on a quiet ocean. Canadian scientists hope to supply the facts and figures that will determine the accuracy of the theory.

Canada is vitally interested in settling the Wegener theory because Greenland is supposed to be the "speed king" among the continents, crawling westward at a rate estimated as high as six miles a year. Meteorological conditions, especially along the Labrador coast, the Maritime Provinces and the New England States, would be affected by any appreciable narrowing or lengthening of the distance between the two land masses.

Delicate scientific observations were made seven years ago at the Dominion Government Observatories at Victoria and Ottawa. Longitudinal measurements were extended around the world with the aid of beam wireless. The positions of America, Greenland and other countries were plotted as minutely as possible. The observations will be repeated in 1933 and again in 1936, and any variation in the plottings will be noted. By this method it is hoped to establish the accuracy of Dr. Wegener's hypothesis.

The first evidence to substantiate the drifting theory was established in 1907 by J. B. Koch, German explorer. In 1823-84 years earlier—Sir Edward Sabine, British scientist, made longitudinal observations in Greenland but when Koch took similar readings at the same spot, the figures did not correspond. The only explanation was that Greenland had drifted several miles toward North America in the intervening years.

Great Natural Asset

High Grade Clay Deposits In Saskatchewan May Prove Foundation Of Great Industry

One of the greatest natural assets of the prairie provinces is constituted in the high grade clays of southern Saskatchewan, said C. M. Huff, assistant director of development for the Canadian Pacific Railway, speaking at a luncheon held by the officers' association of the company at the Royal Alexandra Hotel in Winnipeg. He said that they would in time be the means of support for an immense clay products industry.

In describing these valuable western resources, Mr. Huff told of the general work of his department in fostering Canadian industry by locating deposits of minerals and sources of other raw materials and by assisting in bringing these materials into use. W. C. Casey, president of the association, was chairman.

Advertising Always Pays

The business has not been found in which "advertising does not pay." What capital is to industry, what rainfall is to farm soil, advertising is to business. Advertising is as necessary to national distribution as the railroads.

"You are bandy-legged, Frodion."
"That is nothing. You ought to have seen my brother. He was so bandy-legged that he had to be buried in an old bass viol."—En Roling Half Timms, Gothenborg.

BEST FOR ADULTS, TOO

WORLD HAPPENINGS BRIEFLY TOLD

A Chinese boycott against Canadian salt fish is causing serious curtailment of trade on the Pacific coast.

Efforts to secure a preference for Canadian lumber in South Africa are being made in Ottawa by a committee in British Columbia.

A wooden chessboard was found in the ancient temple of Abou Simbel on the hills of the Nile in Egypt in the ruins of Doha.

Ireland is having the worst floods in 30 years because of uninterrupted rains which have inundated thousands of acres of farm land and forced many families out of their homes.

David M. Shearer, 52, died January 14, from pneumonia. He was an outstanding construction engineer and had charge of the Government elevator construction at Churchill.

Dr. Hugo Eckener, commander of the giant German dirigible, Graf Zeppelin, was awarded the 1931 medal of the International Aeronautic Federation.

A bylaw making prohibitive the sounding of locomotive whistles or clanging of their bells within the city limits between the hours of 10 p.m. and 7 a.m. has been passed by the city council of Quebec.

Sir Henry Fielding Dickens, only son of Charles Dickens, the novelist, spent his 83rd birthday at his post of common sergeant of the City of London, England, an ancient magisterial position.

The John Scott award of \$1,000 was presented jointly to Juan de la Cueva and Harold E. Pitcairn for the invention and development of the autogyro. John Scott was a chemist of Edinburgh, Scotland.

Over 50 tons of express and 34,892 pounds of mail were carried on the north route-between Edmonton and Alkavik, by planes of a commercial aviation company during the season of 1931.

War's Lessons

Canadians Have Deep Interest in Situation in Manchuria

"We have not forgotten the lesson which we learned in 1914 of what an obscure crime in a Balkan state can mean," said Hon. Vincent Massey, former Canadian Minister to Washington, in addressing the Empire Club on Manchurian problems at Toronto. "Canada needs no argument to show the situation in Manchuria is one to command her active interest."

He referred to the treaty of Washington in 1922, and the Paris peace pact, and said Canada, with the full obligation of nationhood, would have to decide for herself whether either treaty had been infringed or violated. Any trade advantage accruing to Canada through China's boycott of Japan would be more than offset by loss of trade with Japan.

India exported 53,000,000 pounds of tea in a recent month.

Heavy Fur Catch

Catch This Year Promises To Be Best In Past Decade

The fur catch in the north country this year promises to be one of the best in the past decade. From early reports received from the far north trappers will bring down heavy shipments of furs this spring.

The quality of the furs, a factor that varies from year to year, promises to be high, north trappers claim, because of the climatic conditions that have prevailed in the sub-Arctic regions this year.

While the catch in the more civilized portions of the province will be only average, north of Churchill and in the southern Indian Lake area the catch nets the spectacular. Prices for pelts this year are only average, dealers advise, and the royalty and heavy cost of bringing them into the United States will prove a handicap to disposal this spring it is feared.

The huge Junkers' plane purchased this year by the Canadian Airways will probably bring the furs down from many of the isolated posts in the far north to Winnipeg.

By Annette

OH! FOR THE FRESH CHARM OF SPORTS CLOTHES THAT PARIS ADORES

Here's a delightfully smart model that is carried out in twist-like woolen in deep bright blue mixture, now so modish.

It gives the impression of suit styling. The collar is white pique. The bindings are in navy blue. The belt is navy blue suede.

It has so much dash.

It's such a splendid type for office or college wear.

Style No. 815 may be had in sizes 14, 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards of 36-inch material with 3/4 yard of 39-inch contrasting 3/4 yard of binding and 1/2 yard of 1 1/4-inch ribbon.

Jersey is a favourite this season and adapts itself perfectly to this model.

It may also be made of cantonelle crepe silk.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Delightful Cruises

Canard and Anchor Line Steamers Furnish Sea Voyages For These

On Holiday Best That the world and his wife are going to sea for their holidays more than ever before is evident in the fact that no less than fifty-six cruises have been arranged for Canard and Anchor Line steamers during the remainder of this winter, spring, and summer. This does not include the departure this week from New York of the "Franconia" on her annual five-month cruise of the world.

The Maritimes and the St. Lawrence will get a good share of this cruise tourist business, for twelve cruises will call at Canadian ports which will form their main attraction for thousands of New Englanders expected on these short trips from New York. Last summer the "Transylvania" made three experimental voyages to Quebec and Halifax from New York, with a 60-mile cruise up the Saguenay River. She is the largest vessel ever to navigate this famous waterway, and on each voyage she was booked to capacity. This summer and fall there will be six such 12 1/2-day cruises, by the steamer and her sister ship the "California" which will then make her first appearance on the St. Lawrence. Other cruises in which Canadian ports will be featured are three six-day cruises from New York to Halifax and Bermuda on the express "Mauretania," during the summer. The Anchor liner "Caledonia" will make a 9-day cruise to Halifax, on August 27th, and on October 20th, a 10-day voyage will be made to the same port by the "Transylvania."

Several short summer cruises on express Cunarders and two Labor Day week-end cruises by the "Transylvania" and the "Berengaria," largest Cruisers, are also scheduled to call at Halifax. Elaborate arrangements for seeing Acadia are being made for these passengers.

Short, inexpensive trips to the West Indies continue to be popular, their success being indicative of the price trends of today. A call at Miami has been introduced into the itinerary of eight 9-day cruises to Havana and Nassau by the "Caledonia," the visit to the Florida playgrounds of the wealthy proving a great attraction. More leisurely visits to the West Indies will be made on three voyages of the "California," and two on the "Scythia," ranging from 12 to 23 days and visiting all the high spots in the islands as well as calls at Panama and the South American mainland.

Bermuda retains its hold on the imagination of the cruise tourist public, the "California" and "Samaria," one of the 20,000-ton Cunarders, being listed to make Easter cruises from New York of 9 and 8 days respectively.

This Independence

A farm laborer in England who had been out of work for many months and had been living on the dole, remarked to his physician one day: "Doctor, do you know I had an offer to work some days ago which would have given me five shillings more a week than I am getting from the dole, but after thinking it over carefully, I preferred to remain independent."

Bilious For Days

At Time Until She Took Vegetable Pills

Gratefully, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels. Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Headaches, Poor Completion and Indigestion. 25c. & 75c. red packages everywhere. Ask for Carter's by NAME.

SUNDAY SCHOOL LESSON JANUARY 31

JESUS FEEDS THE MULTITUDE

Golden Text: "Jesus said unto them, I am the bread of life; he that cometh to Me shall not hunger, and he that believeth on Me shall never thirst."—John 6:35.

Lesson: John 6:1-71.

Devotional Reading: Psalm 34:3-11.

Explanations and Comments

Jesus and the Multitude, verses 1-4.—With His disciples Jesus crossed to the eastern side of the Sea of Galilee (or the Sea of Tiberias, as it was also called from the City of Tiberias which Herod Antipas had built on the western shore of the lake in honour of the Emperor Tiberius), and climbing the hillside sat down for a quiet conference with them.

The Feeding of Philip, verses 5-7.—When Jesus saw the crowd He turned to Philip and asked him where they were to buy bread for them. Philip was a practical man of affairs and he made a hasty calculation. Two hundred silver denarii of bread would not supply even a little for each one.

The Evangelist adds, "This He said to prove him, for He Himself knew what He would do." The difficulty of the task tested Philip's faith. The one thing necessary was that he should turn the problem over to his Master with full faith that He could solve it and would offer to help as the humble instrument by whom the people could be served.

The Lord's Supper, verses 8, 9.—Andrew, Peter's brother, then said that there was a lad among them who had five loaves and two fishes, "but what are these among so many?" he exclaimed. "The emphasis is on the word 'but,'" Andrew saw the poverty of the visible supply, he failed to see the richness of the invisible Power.

The Miracle, verses 10-13.—At the direction of Jesus the people sat down on the grass, about five thousand men besides women and children. Matthew 14:21. They sat in companies of fifty, that the distribution might be quickly made. Taking the five barley loaves in His hands, Jesus offered thanks, probably repeating the customary words, "Blessed art Thou, Jehovah our God, King of the earth, who causest bread to come forth of the earth."

Then Jesus distributed the loaves and fish till all were abundantly satisfied.

When all were satisfied Jesus bade His disciples gather up the broken pieces that were not distributed, that nothing be lost. Those fragments filled twelve baskets. Probably each of the Twelve had a provision basket with him. The scantiness of the source, five barley loaves, is again mentioned to emphasize the greatness of the miracle.

Cleaning Units Needed

To Ensure Distribution Of Clean Seed To Farmers

In order to make with the cleaning of seed grain for distribution to needy farmers this spring between 400 and 500 travelling seed cleaning machines will probably be necessary.

In addition to this, it is believed by grain men that every privately owned seed cleaning machine will have to be utilized if seed grain is to be properly cleaned in preparation for coming spring work.

Over 6,000,000 bushels seed wheat and at least 2,000,000 bushels of seed oats will be required for distribution before spring, entailing an expenditure of approximately 300,000.

According to C. B. Daniel, manager of the Saskatchewan Relief Commission, the seed grain relief plan in Saskatchewan is a gigantic problem and it is essential that a plan be put into effect as soon as possible.

Definite steps toward adopting a scheme whereby clean seed can be supplied to the farmers of Saskatchewan through the Saskatchewan Relief Commission are being formulated, it is learned unofficially, Thursday, Jan. 14.

Across Africa By Train

Important Event That Was Calmly Accepted By The World

The first railway train to cross Africa from ocean to ocean started Jan. 1, last year on its journey from Lobito Bay to Beira a distance of 5,940 miles. The event was a vastly important one and the engineering achievement was worthy of note, but it was calmly accepted by the world. Yet when David Livingstone, the first white man to cross Africa, made the journey in two years, there was hardly anyone throughout all the world who didn't thrill to his grand adventure, and hardly a home where it was not a topic of burning interest. —Wall Street Journal.

SAFE, SPEEDY PROVEN!

Buckley's Mixture

To Assist Agriculture

Quota System Between Canada and Great Britain For Canadian Wheat

Establishment of a quota system between Canada and Great Britain, for Canadian wheat, was visualized as one of the great hopes for Saskatchewan agriculture in 1932 by J. D. MacFarlane, president of the Saskatchewan Agricultural Societies Association, who presented his annual report to an executive meeting of that association at the University of Saskatchewan.

Mr. MacFarlane also said a change in the styles of obtaining credit by the countries of the world was essential to economic recovery, and he believed cancellation of war debts, to enable world buying power to improve, was necessary if 1932 was to be a better year than the past year.

Even adoption of these changes did not offer much hope for the present year, Mr. MacFarlane believed, but he thought they would tend to make next year more normal and would restore agriculture to a place more nearly approaching its old position.

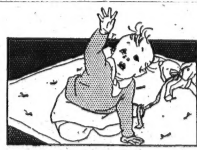

Dispensing of the high rates of interest paid by one country to another would materially assist, he thought. He believed an international banking committee could render help in the situation, functioning similarly to the League of Nations, but dealing with the financial obligations and requirements of the countries of the world. Each country, under this system, would issue its own currency, instead of borrowing in New York or London, England.

A New Explosive

Drives Bullet Five Times Faster Than Sound Travels

The modern rifle bullet has a muzzle velocity of 3,000 feet a second. It strikes a tremendous blow, measured in hundreds of pounds. Now a German named Verlich has invented an explosive that will speed the bullet more than a mile a second faster, and will triple its striking power. That is more than five times faster than sound travels.

It is said that 500 different kinds of material are used for the manufacture of shoes.

BABY FRETFUL, RESTLESS? Look to this cause

When your baby fusses, fumes and seems unable to sleep restfully, look for one common cause, doctors say. Constipation to get rid quickly of the accumulated wastes which cause restlessness and discomfort, give a cleansing dose of Castoria, Castoria, you know, is made specially for children's delicate systems. It is a pure vegetable preparation, contains no harsh drugs, no narcotics. It is so mild and gentle you can give it to a young infant to relieve colic. Yet it is as effective for older children. Castoria's regulative help will bring relaxed comfort and restful sleep to your baby. Keep a bottle on hand. Genuine Castoria always has the name:

CASTORIA

CHILDREN'S CASTOR OIL

RADICAL CHANGE IN MONETARY SYSTEM IS URGED

Edmonton, Alberta.—In a smashing frontal attack on the existing financial system the United Farmers of Alberta, in convention here, condemned the gold standard, called for the complete nationalization of the monetary system and the extension of credit to industry on a basis of cost, not of profit.

The farmers, refused, however, to declare themselves in favor of the nationalization of all the banks. They thought, with a national credit system, the banks would either not be needed or would have to render as good service as the national system.

The resolution passed was "Resolved that we, the delegates of the U.F.A., in convention, do endorse the complete nationalization of the monetary system to advance credit on a basis of cost, not on a basis of profit."

Coincident with the demand for a national credit system came a proposal for intervention, political action to bring this about. A resolution call for this was defeated only on the ground that the United Farmer members in the Federal Parliament had done all possible.

Complaint was made that the United Farmer Government of Alberta and the farmer members of the legislature had not taken the strong stand on the question which had been taken by the Federal members. The convention called on the Provincial Government and all officers and members of the association to proclaim publicly their belief that monetary reform was the only way out of the depression and so give moral support to the members at Ottawa.

This implied a censure on the Provincial Government, said William Irvine, M.P., of Wetaskiwin. The matter was one for the Dominion Government alone and the Provincial Government had to work under the present system and borrow money from the banks.

"It will soon be apparent that every provincial government in Canada is at the beck and call of the financial interests in Wall Street," said Mr. Irvine. "This he thought, might be good propaganda for the cause of monetary reform."

Farmers should unite with industrial workers to secure political power and so change the system, said Karl Axelsson. There was nothing wrong with the Bank Act except it was in the hands of the wrong people. The producing classes should wrest control from the vested financial powers.

As the convention passed a resolution calling for the abandonment of the gold standard, Henry Spencer, member of parliament for Battle River, said Canada had already gone off the gold standard although the government did not admit it.

Deflation of currency was also favored as a means of increasing the sale of farm products. The suggestion that instead of borrowing money and paying interest "to the great financial powers" for unemployment relief works, the government should issue new paper money, was endorsed.

Amendment of the Bank Act to provide a penalty for any bank or bank official charging higher interest than seven per cent. was asked. This was a reiteration of the demand made in the House of Commons last year by Mr. Spencer.

Another resolution passed called upon the government to make wheat certificates a legal tender. It would enable a farmer to take the receipts for wheat delivered to an elevator and use them to make purchases.

The Canadian tariff system was denounced and a resolution declared the time had come for an "all round reduction in our customs duties to let intent that within a period of not less than five years every feature of this barbaric economic superstitution be eliminated from the fiscal policy of our country."

It is now possible to select certain sounds for transmission by wireless while other noises from the same sources are suppressed.

'Plane Makes First Trip

Giant Liner Inaugurates Weekly Air-mail Service To Cape Town
London, Eng.—Promptly on schedule time, the giant Imperial Airways' liner "Helen" took off from Croydon aerodrome Jan. 20, inaugurating a weekly airmail service to Cape Town.

The plane carried 20,000 letters and 150 parcels, including a large box of eggs. The passengers were Air Vice-Marshal Sir Yveil Vyvyan, Lady Vyvyan and F. G. L. Bertam, Deputy Minister of Civil Aviation.

The London-Cape Town route follows established routes as far as Egypt and then plunges south down the "dark continent," travelling a route worked out first by machines of the Royal Air Force, which did the pioneer work only a few years ago.

Offered Fellowship

Fellowship In Royal Geographical Society Awarded To Western Aviator

Edmonton, Alberta.—A fellowship in the Royal Geographical Society has been awarded to Pilot Walter E. Gilbert, Canadian Airways, Limited, according to word received in the city. Such an award to an aviator is believed to be unusual.

Pilot Gilbert flies Canadian Airways, Limited, machines from Edmonton to the Arctic Coast, and is associated with Major Barwale on the latter's trip to King William Land and the north magnetic pole in the fall of 1930. He piloted the aeroplane G-CASK on that occasion. This machine, known for steady service and which has been flown steadily by Gilbert for more than a year, is almost as well known as his master.

Scholarships For Argentina Students

Will Provide Same Facilities As Given Rhodes Scholars

London, England.—The Prince of Wales announced the establishment of a scholarship for Argentina students at Oxford University at a dinner of the Argentina Chamber of Commerce here.

The prince said the scholarship would provide the same facilities as were given to Rhodes scholars from the United States. It would be extended to two students from the University of Buenos Aires annually for at least three years. Each student would stay at Oxford for two years.

More Air Mail Business

Post Office Officials Report Increase In Prairie Provinces

Ottawa, Ont.—Air mail business in the prairie provinces has increased, post office officials declared, commenting on a despatch from Edmonton, Alberta, which said the U.F.A. convention had passed a resolution urging the abandonment of unprofitable services.

Departmental officials are busy on the estimates for next fiscal year, and the air mail will receive attention among other branches of post office activity. It could not be learned whether the appropriation for this will be increased or cut.

Value Overestimated

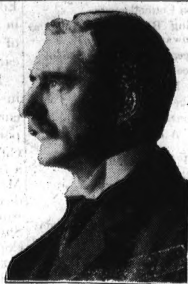

Furs On Baychimo Not Worth Over Thirty Thousand

Winnipeg, Man.—"Ridiculous" was the expression voiced by officials of the Hudson Bay Company in regard to report that the missing fur-trade vessel "Baychimo," lost in the Arctic Circle carried fur pelts valued at \$1,500,000. Officials stated that the total value of pelts on board would not exceed \$30,000. A quantity of pelts had been saved before the vessel disappeared they said.

Don Graham, 35, Alaska air mail pilot, is reported flying to find the ship and seize the furs under salvage laws.

The salmon pack in British Columbia reached a record figure of 2,221,819 cases last year, exceeding the previous record attained in 1926 by 156,629 cases.

WAR DEBT ADJUSTMENT

Right Hon. Neville Chamberlain, Chancellor of the Exchequer, who will attend Reparations Conference.

Aviators Stranded In China

Fliers From Canada and U.S. Cannot Get Jobs

Shanghai, China.—Five Canadian aviators and five from United States, who came to China expecting to be given jobs at \$1,000 a month piloting Chinese military aeroplanes, found themselves stranded here.

The aviators said they were promised by Chinese organizations in Canada and the United States the aviation bureau of the Chinese Ministry of War was seeking pilots and would pay the salary mentioned for competent men.

The aviators landed here with practically no money only to be told the government bureau is not looking for pilots at all.

The five pilots from the United States said posters appeared at numerous Pacific coast airports advertising for pilots.

Dr. Philip Chu, Chinese physician at Vancouver, the Canadians said, is director of the Chinese society there and was directing the enlistment of Canadian fliers.

The aviators said they understood more Canadian and United States pilots are coming to China as a result of the promises. The trade commissioners communicated with their respective governments, hoping to forestall the coming of others.

No Franchise For Women

Bill Introduced In Quebec Legislature Is Defeated

Quebec, Que.—Attempt of the women of the province of Quebec to secure votes in provincial elections failed again in the legislative assembly.

The Women's Franchise Bill, sponsored by Dr. Anatole Plante (Lib. Mercier), went down to defeat by a vote of 52 to 23 on an amendment moved by Arthur Belanger (Lib. Russ), that "adoption is optional for the people."

The Kazan cathedral was started in 1801 and completed in 1811 at a cost of approximately \$2,000,000.

President Of U.F.A.

Robert Gardiner Unanimously Chosen To Lead Organization For Second Term

Edmonton, Alberta.—Robert Gardiner was unanimously chosen president of the United Farmers of Alberta for a second term at the annual convention here.

The veteran farm leader, who represents Acadia in the House of Commons and is also leader of the United Farmers of Alberta group in Dominion politics, was given an ovation when no other nominations were offered.

Mr. Gardiner notified the members they had better look around for another president for 1933. He said he found the burden of carrying the two posts of leader of the group in the House of Commons and president of the association too heavy.

Norman F. Priestly, Calgary, was re-elected vice-president by acclamation. A. F. Aiken, Battle River, was also nominated, but withdrew in favor of a renewal of Mr. Priestly's term of office.

Railways and Truck Competition

Suggestion Made That Railways Must Eventually Co-Operate With Bus Operators

Toronto, Ont.—Further co-operation of railways with bus and truck operators was urged by Hon. Leopold Mearns, Ontario Minister of Highways, here. Co-operation of provincial and Dominion Governments to this end is essential, he said.

"Railways themselves are partly to blame," said Mr. Macaulay, "for truck and bus traffic is making inroads upon the business of the steam transportation systems. Advantages of co-ordinating the two Canadian railway systems and all phases of transportation would become increasingly evident as time went on, he believed."

"I am looking forward to some suggestions from the royal commission on transportation as to means whereby the railways may co-ordinate truck and bus traffic with their own operations," he declared.

Cathedral Is Being Turned Into Museum

Soviets Will Use It For Anti-Religious Exhibits

Leningrad, U.S.S.R.—The Soviet government has announced that the Kazan cathedral here would be converted into the largest anti-religious museum in the Soviet Union.

When completed, the museum would contain exhibits of various objects of a religious nature, interpreted along the lines of the late Karl Marx's doctrine, adopted by Soviet Russia, that "religion is opium for the people."

The Kazan cathedral was started in 1801 and completed in 1811 at a cost of approximately \$2,000,000.

TRAGEDY OF SINO-JAPANESE WAR

Rather than be a source of worry to her soldier-husband as he departed for the battle-front in Manchuria, Mrs. Kiyochi Inoue (left), 21-year-old wife of Lieutenant Inoue (right), of the Japanese army, calmly attired herself in her best clothes and stabbed herself in the throat with a dagger her husband treasured. She left a note for her husband, in which she explained the reason for her suicide, and enclosed 40 yen (about \$20), with the request that he spend the money to make his soldiers happy. Her home was in Osaka, Japan.

BOYCOTT AGAINST BRITISH GOODS WEAPON IN INDIA

Bombay, India.—The merchants' organization, comprising representatives of markets and exchanges that have been closed for 16 days, laid plans for a mass meeting to protest the arrest of Mahatma Gandhi, Nationalist leader, and ordinances directed against the Nationalist civil disobedience campaign.

Statistics from "authoritative sources" were published purporting to reveal the effect of the Nationalist boycott against British goods. They show Japan has shipped nearly 15,000,000 yards of cloth to India in one month, compared with less than 3,000,000 yards shipped by concerns in Great Britain during the same period.

Two 16-year-old girl students from the University of Bengal went to trial before a special tribunal in Calcutta, charged with the murder of Magistrate C. G. B. Stevens who was shot to death a month ago. Both pleaded not guilty.

A British police sergeant was stabbed in the head at Dacca, by an unidentified assailant who stole his revolver and died. Two suspects were arrested. When a crowd attempted to seize several prisoners in Gorakhpur police fired two rounds of buckshot without wounding anyone.

Ben Gupta, former mayor of Calcutta and a prominent Nationalist, was arrested as he stepped off an Italian ship. No specific charge was lodged against him.

Rev. H. V. H. Elvin, a young missionary, who accused authorities in the northwest frontier provinces of oppression, cruelty, and "things that ought to make an Englishman ashamed," said he had been arrested and deported from that area. He blamed special officers for the alleged outrages and paid tribute to the regular British police force for desecrating its members as real friends of the people.

Suggests Bonus For Buyer

Proposal Would Benefit Coal Purchaser Instead Of Mine Operator

Calgary, Alberta.—Any step towards improvement in the Canadian coal industry meets the approval of Alberta operators, it was declared by officials commenting on a proposal for a government bonus to the purchaser of coal instead of the mine operator. H. J. Kelly, manager of the Dominion Steel and Coal Corporation, in Sydney, N.S., suggested the government pay a bonus, not to the mine operator, but to the purchaser of Nova Scotia coal.

"At present the subvention from the government benefits the railways, not the purchaser," declared P. R. Shields, manager of Coal Sellers Company, Limited. "Any subvention should result in a lower price to the consumer in order to be of any advantage to the industry."

Claims Copyright Infringement

Damages Asked For Use Of Photograph Of Prince Of Wales On Two Dollar Bills

Toronto, Ont.—Damages for the use of copyrighted photograph of the Prince of Wales on Dominion of Canada two-dollar bills are being sought by George P. Freeland, local photographer, in an action started against the Canadian Bank Note company, Ottawa.

Mr. Freeland claims that during the visit of the Prince in 1919, he took a number of photographs of his royal highness and copyrighted them. The pictures, he says, were later used on a two-dollar bill.

Wheat Quota Workable

London, Eng.—The government's revised wheat quota scheme, giving domestic farmers a fixed proportion of the British market, is so far as it goes, more workable than the original proposals, the National Union of Farmers was told at a meeting recently by a member who had been one of the negotiators with the government over the plan.

Davidson—Rivest.

The marriage of Miss Cecilia Rivest and Mr. Percy Davidson took place quietly at McDougall church, Edmonton, Tues. Jan. 19. The ceremony was performed by Rev. G. A. Sauder. Mr. and Mrs. Davidson will reside in Holborn district.

United Church Notes.

On Sunday last there was a good attendance at all points. The Pastor spoke on the subject of "God's Invitation," stressing the usages of the word "Come" in the Old and New Testament.

On Thursday afternoon the Ladies Aid is celebrating the 16th anniversary of its organization by a special tea at the home of Mrs. Michael.

On Thurs. Evg. at 8 o'clock Rev. Dr. Dobson will lecture in the church on the subject of "A Christian World Order." Dr. Dobson is one of Canada's foremost industrial and social scholars and a most fluent speaker. Admission is free; collection.

If others failed to satisfy you, See M. Mecklenburg, at the Royal Hotel, Stony Plain, Friday March 4.

Railway Time Table

Going West—Every morning at 11:44.
Going East—Every afternoon at 3:44.

AUCTION SALE BILLS

WE'LL GOT UP AND PRINTED AND ADVERTISING, TOO, ARE ESSENTIAL IF YOU WISH YOUR SALE TO BE A SUCCESS. BRING YOUR LIST TO THE STONY PLAIN SUN

Nicholl—Miller.

One of the most popular weddings in the history of the Stony Plain district was that of Mr. Conol Nicholl and Miss Magdalena Miller, daughter of Mr. and Mrs. Peter Miller, Mewassin.

The marriage was consummated in the Reform church, Mewassin, the edifice being filled to capacity. The ceremony was performed by Rev. C. H. Reppert, on Tuesday, Jan. 26. A special address was given by Rev. G. A. Sauder of the Stony Plain United church.

After the ceremony the wedding party with about 200 guests resorted to the home of Mr. Peter Miller, where a most sumptuous wedding dinner was served. Mr. Brian was called upon to convey best wishes to the bride and groom, which he did in a brief and witty address.

The groom also in a brief address expressed his appreciation of the good wishes of all and the many bridal gifts. The bride wore a gown of ivory satin and carried a bouquet of roses.

The bridesmaid was Miss Christina Miller, who had a bouquet of carnations, was dressed in pink crepe de chene.

Mr. Roy Nicholl, brother of the groom, acted as best man. Mr. and Mrs. Nicholl will reside in their new home in Brightbank district.

Do you know that the high bridge in glasses is the latest style. See M. Mecklenburg, who will be at the Royal Hotel, in Stony Plain, on Friday March 4.

4—M. M. Mecklenburg at Stony Plain

Hockey Gossip.

The hockey games on Tuesday night at the Zucht Rink resulted in a win for Stony Juveniles from Onoway Juniors, and the scheduled big game was won by the visitors.

The Junior hockey game at the local rink was won by Indians 5, Rosebuds 4.

Stony's hockey player bunch which has posed as its "Senior" team and which has up to the present been full of dates to play games with teams on the outside, now has a real problem to work out. It would appear now that the invitationers intended the invitations be given to the BEST hockey team at Stony Plain. This had news for the "Seniors" came just as the bunch were getting ready to commence to begin to lay plans for visits to distant points ere the hockey season had come to a close. In any event, the trip to Camrose is cancelled, as their old mascot has refused to accompany the bunch.

The compilers of the schedule under which the local hockey league is operating certainly believed in concentration, as, for instance, the Flyer team after playing about five league games in eight days are given a layoff of about ten days and begin playing again next Sunday with Wabamun at Wabamun; and then have the same Wabamun team on their hands again within 48 hours—on Tues. Feb. 21. The other teams appear to suffer from the same—well, wotchumayoolit!

Card of Thanks.

We wish to take the opportunity to thank all the friends who by their presence at the home or by letter so kindly expressed their sympathy in our bereavement and also for the beautiful flowers.

Mr. C. L. Meads and Family.

WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes?
The right glasses fitted to your eyes will surely relieve you and give you comfort.
Glasses furnished Free.
Ten dollars examination fee.
That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$25 to \$35, but if you cannot see the logic of this; you need more than glasses.

STONYPLAIN.

Spruce Grove News

Daye Bell's gasoline must have a far and wide reputation for its quality, when an Edmonton motorist risks jail in an attempt to siphon some of it from another driver's car.

But, this is what happened in Edmonton last week, according to a very reliable report which comes from the City. Mr. W. J. Connolly and a friend saved the gasoline in Mr. Connolly's car last Thursday morning and donated the would be thief to Chief A. G. Shul's minions. When Mr. Connolly and his friend came out of McGavin's bakery door and saw a stranger operating on the Spruce Grove car, they made a combined rush, followed by his capture.

The prisoner gave his name as Morgan. When he appeared in Court, it was found that he was an old offender. It was also discovered that the car he was stealing the gas for was itself stolen by Morgan in Calgary.

When this was brought to the notice of the convicting Magistrate, the latter gave Morgan a sentence which will keep him from public view for about two years.

The Wheat Bonus.

Alberta farmers will benefit close on to six million dollars by the wheat bonus, according to estimates of the Dominion board of statistics. The crop along with carryover totals 144,300,000 bu.; with 26,200,000 bu. to be retained for seed and feed, there will be a total of 118,100,000 bu. delivered between August 1, 1931, and July 31, 1932, the expiry date of the bonus.

Schedule of Mails.

To the East—Every day except Monday; train No. 2, at 15:44.
From the East—Every day except Sat.; train No. 1, at 11:44.
To West—Sun., Tues. & Thurs.; train No. 1, at 11:44.
From West—Sun., Wed. & Friday; train No. 2 at 15:44.
Reg. for the East, Sun. Wed. & Friday.
Reg. for the West, Sun., Tues. & Thurs.
Mail should be posted half hour before Train time.

Open Seasons for Game.

Ducks and Geese—Sept 15 to Nov 14th.
Hungarian Partridge—Oct 1 to Nov. 15.
Sharp-tailed Grouse—Oct. 1-15.
Pheasant—No open season
Deer—Nov 1 to Dec 14
Otter, Nov. 1 to May 1.
Beaver, No Open Season.
Muskrat—Between North Saskatchewan and Tp. 91, Feb. 15 to April 15
Game Licenses can be had at Sun. Office, where copies of the Game Act can be seen.

2 Meals a Day, Plenty

Water, Helps Stomach.

"Since I drink plenty water, eat 2 good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForest.
Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a HEAL, cleaning and see how good you feel! J. F. CLARKE drug.

Here and There

Hockey sticks to the number of \$24.14, valued at \$17.625 or an average of 30 cents apiece, were made in Canada in 1930. Tennis rackets in the same year numbered \$1.245 with a value of \$234.503.

The population of Canada, according to last year's census, is 10,833,774, an increase of 10 years of 1,565,329, or 17.33 per cent. The largest provincial population is in Ontario with 4,645,845. Saskatchewan, Alberta and Manitoba rank third, fourth and fifth.

A new rose has been produced at the Canadian Government Central Experimental Farm, Ottawa, hardy enough to withstand the climate at Ottawa without protection. It is a pale pink, blooming until the middle of June.

Brigadier-General H. F. Macdonald, of Vancouver, officially opened the Banff Winter Carnival Toboggan Slide, December 23. The General, Mrs. Macdonald, and their small daughter Mary made the official opening slide—a minute run down the slide.

The biggest moose of the 1931 season in New Brunswick, with an antler spread of 56 inches, fell to the gun of Andrew Porter, Philadelphia sportsman. There had been three moose shot this year in New Brunswick. Prior to this trophy, with spreads of 54 inches.

The Eastern International Dog Sled Derby will be held at Quebec February 23, 24 and 25, announced officially. Closing this, among the most colorful winter sport events of the season throughout Canada, the Dog Derby Costume Ball will take place at the Chateau Frontenac, Quebec, Wednesday evening, February 24.

The Oxford and Cambridge teams of skiers from the Old Country picked up the laurels at the Laurentians this year as the scene of their exploits, in place of Switzerland during the Christmas-New Year vacation, as part of the all-British programme of sending "with a bang" the season. They had enough snow at Christmas to justify their venture and the success of the trip was placed beyond doubt by the heavy snowfall of January 2.

Creation of a Department of Communications, Canadian Pacific Railway, having supervision over the railway's telephone and radio broadcasting services and taking the place of the former Canadian Pacific Railway Telegraphs, became effective January 1. W. D. Neil was appointed general manager of the new department, vice John McMillan, retired general manager of the Telegraphs Department. His assistant general manager is E. H. Goodfellow, who succeeded J. McMillan, retired.

With the retirement of J. C. E. Bennett, official photographer of the Canadian Pacific Railway, thirty years of a colorful and much traveled career closed January 1. Mr. Bennett during his Canadian Pacific experience and in the 18 years he preceded it, took upwards of 40,000 photographs, providing a striking record of the growth and development of Canada. 614

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels but let Adlerika give you a REAL cleaning and see how good you feel! It will wipe you out! J. F. CLARKE, Drugist.

CHAPTER XI.—Continued.

Jean, glancing enquiringly at Mrs. Craig, was startled at the sudden change in her face produced by Lady Anne's simple announcement. The sallow skin seemed to pale, most wither, like a flower that needs water—and the lips that had been parted in a smile stiffened slowly into their accustomed straight line.

"Of course," Mrs. Craig's voice sounded flat and she swallowed once or twice before she spoke. "That must be it—I knew your father, Miss Peterson."

To Jean, always sensitive to the emotional quality of the atmosphere, it seemed as though some current of hostility, of malice, leapt at her through the innocent-sounding speech. "I knew your father?" It was quite ridiculous, of course, but the words sounded almost like a threat.

She had no answer ready; and a brief silence followed. Then Lady Anne bridged the awkward moment with some commonplace, adroitly steering the conversation into smoother waters, and a few minutes later Mrs. Craig rose to go.

"I'll see you across the park, Judith," volunteered Nick and he and his mother accompanied her out of the room.

In the hall, Lady Anne detained her visitor an instant with a light hand on her arm, while Nick foraged for his own particular headgear amongst the family assortment of hats and caps.

"Jean is a dear girl, Judith," she said earnestly. "I want you to be friends with her. Don't"—pleadingly

When PAIN Comes

WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food soup. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go, get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 50c a bottle—any drug store. (Made in Canada.)

W. N. U. 1926

"I wish the sins of the fathers on the children," she said.

"Why, no, I shouldn't," replied Mrs. Craig, with apparent frankness. "It was only that, for the moment, it was rather a shock to learn that she was—that woman's child."

"Of course it was," acquiesced Lady Anne. "Goodbye, dear Judith!"

But notwithstanding Mrs. Craig's assurances, a troubled look lingered in Lady Anne's grey eyes long after her patient's departure.

CHAPTER XII A Sense of Duty

Jean was immensely puzzled at the abrupt change which had occurred in Mrs. Craig's manner immediately upon hearing that she was the daughter of Glyn Peterson, and, as soon as the visitor had taken her departure, she sought an explanation.

"What on earth made Mrs. Craig freeze up the instant my father's name was mentioned? Did she hate him for any reason?"

Tormarin looked across at her.

"No," he answered quietly. "She didn't hate him. She loved him."

Jean stared at him in frank astonishment. She had never dreamed that there had been any other woman than Jacqueline in Glyn's life.

"Mrs. Craig—and my father?" she exclaimed incredulously.

"She wasn't Mrs. Craig in those days. She was Judith Burke."

"What, but—?" persisted Jean, determined to get to the bottom of the mystery. "I still don't see why."

"Why what?"—unwillingly.

"Why she looked as if she loathed the very sight of me. That's not"—judith the effect you would expect to see in a lover's eyes."

There was a curiously abstracted look in Tormarin's eyes as he made answer.

"Love is productive of very curious effects on occasion. More particularly when it is without hope of fulfilment."

"I added in a lower tone."

"Well, I suppose my father couldn't help not falling in love with Mrs. Craig," protested Jean with some warmth. "Nor could he have prevented her falling for him. And it's certainly logical of her to feel any resentment towards me on that score. I had nothing to do with it."

"Love and logic have precious little to say to each other, as a rule," replied Tormarin grimly. "To Judith, you're the child of the woman who stole her lover away from her, so you can hardly expect her to feel an overwhelming affection for you."

"The woman who stole her lover away from her?" repeated Jean slowly. "I don't understand. What do you mean, Blaise?"

"Surely"—don't you know the circumstances?"

"She shook her head.

"No. I simply don't know it is the least what you are talking about. Please tell me."

Tormarin made no response for a moment. He was standing with his back to the light, but as he lit a cigarette the flare of the match revealed a worried expression on his face, as though he deprecated the turn the conversation was taking.

"Oh, well," he said at last, evading the point at issue. "It's all ancient history now. Let it go. There's never anything gained by digging up the dry bones of the past."

Jean's mouth set itself in a mutinous line of determination.

"Don't mind me, Blaise," she reiterated. "As it is something which concerns my father and a woman, I shall probably be meeting fairly often in the future. I think I have a right to know about it."

He shrugged his shoulders, resignedly.

"Very well—if you insist. But I don't think you'll be any happier for knowing." He paused. "Still inflexible?"

She bent her head.

"Quite"—firmly—"whatever it is, I'd rather know it."

"On your own head be it, then." He seemed trying to infuse a lighter element into the conversation, as though hoping to minimise the effect of what he had to tell her. "It was just like this—that your father and Judith Burke were engaged to be married at the time he met your mother, and that—well, to make a long story short, he ran away with Miss Mavory on the day fixed for his wedding with Judith."

A dead silence followed the dis-

COULDN'T COMB HAIR

Gripped by Rheumatism

"I had been suffering with rheumatism for about 2 years, and about the last time I was laid up for 10 weeks. My hands and arms and knees were the worst affected. I could not pick up at all. I could not wash my face or comb my hair. All this had to be done for me. At the beginning of this year I suffered from rheumatism every morning and I am pleased to say I am quite well now and able to do my own housework in all kinds of weather without it troubling me."

—Mrs. J. E. K. K.

Rheumatism is a disease which attacks the joints of the body. It is a disease which is caused by the action of the bacteria which are found in the blood. It is a disease which is caused by the action of the bacteria which are found in the blood.

Two of the ingredients of Knechen Salts have the power of dissolving the bacteria which are found in the blood. Other ingredients of Knechen Salts Nature to flush out this dissolved acid held through the joints and the kidneys. Other ingredients still, prevent the formation of bacteria in the blood, and thus prevent the formation of bacteria in the blood.

But of other impurities which poison the blood and put the system in a state of health.

—Mrs. J. E. K. K.

Then Jean uttered a low cry of dismay.

"My father did that? Are you sure?"

"Quite sure," answered Jean.

Tormarin could see that the story had distressed her. Her eyes showed hurt and bewilderment like those of a child who has met with a totally unexpected thing.

"Don't think it like that," she urged hastily. "After all, it was nothing so terrible. You look as though he had broken every one of the ten commandments."

Jean smiled back rather wanly.

"I don't think I should worry very much if he had—in some circumstances. But don't you see?"

It was so cruel, so horribly selfish!

"You've got to remember two things in justification."

"Justification?"—expressively.

"There wasn't any. There couldn't be."

"Well, excuse me, if you like. One thing I do know. Jacqueline Mavory was one of the most beautiful of women, and I think that your father's engagement to Judith had really been more a matter of convenience than of love. I think that your father's engagement to Judith had really been more a matter of convenience than of love. I think that your father's engagement to Judith had really been more a matter of convenience than of love."

"That was the root of the trouble."

"It was Judith's pride that was hurt—as well as her heart. She married Major Craig not long after, and I believe they were really fond of one another and completely happy. But she was never forgiven for that."

"And you, being Jacqueline Mavory's daughter, will come in for the residue of her bitterness. Unless"—ironically—"you can make friends with her."

"I shall try," said Jean simply. "Is Major Craig living now?"

"No. He died out in India, and after his death Judith came back to England. She has lived at Willow Ferry with her brother, Geoffrey Burke, ever since."

There was a long silence, while Jean tried to fit in the new facts she had learned with her knowledge of her father's character. She was a little afraid that Tormarin might misunderstand her impulsive outburst of indignation.

"Don't think that I am sitting in judgment on my father," she said at last. "In a way, I can—even understand his doing such a thing. You know, for the last two years of my mother's life I was with them, both constantly, and anyone living with them could understand their doing all kinds of things that ordinary people wouldn't do."

She paused, as though seeking words that might make her meaning clearer. "They would never really mean to hurt anyone, but they were just like a couple of children to me. They were irresponsible and happy. I always felt years older than either of them. Glyn used to say I was 'cursed with a damnable sense of duty.'—laughing rather ruefully. 'I suppose I am. Probably I inherit it from our old Puritan ancestors on the paternal side.'"

"I don't know if I should have cheerfully run off and taken my happiness at the cost of someone else's prior right."

A look of extreme bitterness crossed Tormarin's face.

(To Be Continued.)

Uniform Monetary System

Proposed That Effective Measures Be Taken By The British Empire

A memorandum, strongly advocating the introduction of a uniform monetary system for the British Commonwealth of Nations was adopted by the Federated Chambers of Commerce of the British Empire.

The memorandum declares, since most empire countries are now of the gold standard the struggle to attract and retain gold has ceased. But in order to remain competitive in the world's markets, the nations are obliged to force down prices by currency contraction which has led to similar contractions by other nations, neutralizing the first advantage and depressing prices below the cost of production.

This, the memorandum says, has reduced the purchasing power of 21 per cent. of the world's population. So-called over-production, it continues, is really under consumption, owing to restricted purchasing power.

No one nation can prevent this depression, the memorandum contends, and the only group strong enough to take effective measures is the British Empire, within which members would insulate themselves from external competition while re-expanding their currencies. Action which would make possible the establishment of a new operation.

In all infantile complaints that are the result of the "depression" of the system, the memorandum states, Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure a orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

New Treatment For Anemia

Scientist Claims Extract Injection Will Combat This Trouble

A new and simplified treatment for pernicious anemia eliminating many of the uncertainties and difficulties of present treatments, has been perfected by research scientists at University of Minnesota.

The new treatment involves intravenous injection of concentrated liver extract and obviates the necessity of frequent doses of liver extract or substitutes administered by mouth against which patients rebel.

Four to six injections of the new extract into the veins of a pernicious anemia sufferer have restored the blood to normal. After the blood has been replenished with red corpuscles, it is possible to maintain this state by once injecting at intervals of from four to six weeks.

—London Times, England.

So far as this country is concerned there is certainly a widespread belief that general cancellation of reparations and war debts would facilitate economic recovery and, therefore, be generally beneficial; but the British taxpayer would not lightly entertain the idea of cancelling reparations while retaining the burden imposed by war debts.—London Times, England.

Not Asstina Kennedy Like He. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from every other remedy. War has lost its great work of relief until known from ocean to ocean for its standard value. Kellogg's the foremost and best of all asthma remedies, stands up a reputation founded in the hearts of thousands who have known its benefit.

When You CAN'T QUIT

Fatigue is the signal to rest. Obey it if you can. When you can't, keep cool and carry on in comfort.

Aspirin was meant for just such times, for it restores your comfort. Freedom from those pains that nag at nerves and wear you down. One tablet will block that threatening headache while it is still just a threat. Take two or three tablets when you've caught a cold, and that's usually the end of it.

Carry Aspirin tablets when you travel. Have some at home and keep some at the office. Like an efficient secretary, they will often "save the day" and spare you many uncomfortable, unproductive hours. Aspirin is harmless, so keep it handy, keep it in mind, and use it.

No man of affairs can afford to ignore the score and more of uses explained in the present directions. From a grumbling tooth to those rheumatic pains which seem almost to bend the bones, Aspirin tablets are ready with quick relief—and always work. Neuralgia. Neuritis. Any nagging, needless pain.

Get the genuine tablets, stamped with the Bayer cross. They are of perfect purity, absolutely uniform, and have the same effect every time. Why experiment with imitations costing a few cents less? The saving is too little. There is too much at stake. But there is economy in the purchase of genuine Aspirin tablets in the large bottles.

Made in Canada

The Institute's Play

Moosé hall was packed to capacity on Friday night, the occasion being the repeat performance of the play "Too Many Wives" under the auspices of the local branch of the Women's Institute. The original cast of characters was in Friday evening's presentation. The audience present appeared well pleased and applauded heartily during the evening. This play was reviewed in an extended form on its showing here on Dec. 2d. It is understood the show will be given again, at an outside point.

Brightbank News

The U.F.A. whist drive recently held at the Lucknow school house was a splendid success. Those winning prizes were: Ladies' 1st, Mrs. George Dickie, Silverware; Men's 1st, Mr. E. Moldenhauer, box of 50 cigars; Consolation prizewinners—Miss Olive Jamieson and Mr. P. Klapper.

The Allen & Barnes coal mine was well patronized during the recent cold spell.

Mr. Sam Anderson was a week-end visitor with friends in this district.

Lucknow S. D. ratepayers held their annual meeting last week, when H. Schneider was elected trustee over Mr. Jean Facette by a vote of 22 to 10. Mr. A. Kroye, whose term had expired, declined a re-nomination.

Mr. H. Summerfield headed a party of fishermen who motored up to Lake Wabamun last week. They returned with a fine string of jackfish caught thru the ice; the largest fish tipping the scales at 14 lbs.

White, yellow, pink, gold, high bridge frames are the latest in spectacles. See M. Mecklenburg, as Stony Plain Friday March 4.

Hansen's Corners.

The annual meeting of the ratepayers of Hansen Corners S.D. took place Sat. Jan. 16. Mon! but it was a gran' affair! On the election for trustee Mr. J. J. Clausen was elected by a majority of half a dozen votes. There were some lively discussions on various subjects. One ratepayer was trying to homestead the floor all the time, until the chairman had to call the turn on him.

Three delegates are said to intend going in to Edmonton, to interview the Minister of Education and get him to change the School Act.

Mrs. A. Hasse resigned as Secretary-treas. to the School Board.

Carl Groskopf is at present busy sawing lumber and has a big gang of men working in the woods.

Three crows were noticed flying thru the district on Saturday last—a sign taken to mean that Spring is not far off.

"Our U.F. Local is a real live wire, and great interest and enthusiasm are shown by the members. We have a paid up membership of 14, and 12 regular meetings were held during the past year." W. O. Allen, secretary to Hansen's Corner U.F. Local, reports in the U.F. official paper.

Better Business Ahead Says Beatty And Canada is Ready to Move Forward

Canadian Pacific President Issues His Annual Review of Economic Conditions and the Outlook for Future Development and Progress in this Country.

BBETTER business this year, says E. W. Beatty, president of the Canadian Pacific Railway, in his annual review of Canadian business for 1931. A condensed report of the review is as follows:

Mr. E. W. Beatty, President of the Canadian Pacific Railway.

"Seriously affected by world conditions as they are, Canada may appear to be, there is no country of the same or anything like the same comparative position in the world affairs that is less affected. The Canadian Pacific, for instance, has no apologies to offer for any of the more recent important additions and improvements it has made to its services. The 'Empress of Britain', built largely to develop a new class of deluxe American trade for the Canadian route to Europe has justified our best expectations, and up to the end of the world-cruise in April next a reasonably good profit on her operations is assured. The Royal York Hotel at Toronto has also done very well considering existing conditions and the need for such a convalescence for the traveling public in that city is just as great now as when this year's season was behind us so enthusiastically hailed. It is upon such forward movement that the Canadian Pacific must move or be perished. If the original building of the Canadian Pacific had been carried out until existing traffic justified its operation Canadian national development would not be decades behind its present position.

"Over the past year railways have been more adversely affected by the general trade contraction than has any other branch of industry. A 22.1 per cent. decrease in Canadian Pacific gross revenue for the first ten months of the year is symptomatic of these conditions. The fact that we were able to effect a 19.1 per cent. saving in operating costs over the same period is an evidence of the high standard of efficiency at which the property has been maintained. The fact that we were able to make reductions in that of taxes which will run this year at \$7,500,000 to \$8,000,000, a saving of \$500,000, is an evidence of the efficiency of the company's management. The fact that we were able to make reductions in that of taxes which will run this year at \$7,500,000 to \$8,000,000, a saving of \$500,000, is an evidence of the efficiency of the company's management. The fact that we were able to make reductions in that of taxes which will run this year at \$7,500,000 to \$8,000,000, a saving of \$500,000, is an evidence of the efficiency of the company's management.

"The railway situation has moved into recognition as Canada's most imperative domestic problem. Its causes, complexities and possible solution are now being probed by a most competent tribunal the appointment of which at this time was an act of common sense and courage. The Canadian people will present to an interested world renewed evidence of their qualities if they give their confidence to that tribunal and meet its suggested solutions with considerations of economic value unbiassed by political color or preconceived prejudice.

"The nation, its various communities, many of its business institutions and no small number of its individuals have in the past ordered their affairs as though the way to enduring prosperity lay through extravagant expenditure with little or no thought of stability of investment or profitable return thereon. Thus as a nation

we are faced with debts that must be met. I know of no way of meeting them other than by hard work and strict economy. Of wise expenditures leading to the opening up of undeveloped areas or lowering of production costs there can be no just criticism at any time, nor should the railways be blamed too carelessly for having looked ahead and prepared their facilities so that future business reasonably assured might be adequately taken care of.

"The Canadian Pacific, for instance, has no apologies to offer for any of the more recent important additions and improvements it has made to its services. The 'Empress of Britain', built largely to develop a new class of deluxe American trade for the Canadian route to Europe has justified our best expectations, and up to the end of the world-cruise in April next a reasonably good profit on her operations is assured. The Royal York Hotel at Toronto has also done very well considering existing conditions and the need for such a convalescence for the traveling public in that city is just as great now as when this year's season was behind us so enthusiastically hailed. It is upon such forward movement that the Canadian Pacific must move or be perished. If the original building of the Canadian Pacific had been carried out until existing traffic justified its operation Canadian national development would not be decades behind its present position.

"Over the past year railways have been more adversely affected by the general trade contraction than has any other branch of industry. A 22.1 per cent. decrease in Canadian Pacific gross revenue for the first ten months of the year is symptomatic of these conditions. The fact that we were able to effect a 19.1 per cent. saving in operating costs over the same period is an evidence of the high standard of efficiency at which the property has been maintained. The fact that we were able to make reductions in that of taxes which will run this year at \$7,500,000 to \$8,000,000, a saving of \$500,000, is an evidence of the efficiency of the company's management. The fact that we were able to make reductions in that of taxes which will run this year at \$7,500,000 to \$8,000,000, a saving of \$500,000, is an evidence of the efficiency of the company's management.

35,775, an increase of 5,500, bringing the Canadian holdings up to over 46 per cent. of the total number of shareholders.

"It is recently a most encouraging experience to me to go through Western Canada and witness the courageous manner in which westerners are facing the situation. Any idea that the West is giving itself up to self-pity on the score that its future as an agricultural country is doomed should be abandoned forthwith. As a whole that country is not doing too badly, and its people are firm in their well justified knowledge that they are going to do as well as ever in the not too distant future. The most seriously affected areas comprises but 20 to 25 per cent. of the West, and over the remainder the conditions are at least fair to good. Great encouragement has resulted from recent advances in wheat prices, and since the statistical position of that grain in world markets is undoubtedly strong, higher prices and a reasonably good demand are not unlikely over the coming year. Intelligent interest in improved methods and lower cost of production as well as in the important matter of future diversification of farming in general. This and the fact that Western Canada has again shown that it can produce the world's best in both grain and live-stock is enough guarantee of that country's future. Eastern Canada has no less reason to view its agricultural destiny with confidence. Production and export of live-stock and dairy products have increased and the fruit crops of Ontario and Nova Scotia are meeting with excellent markets abroad.

"An important increase in gold production, some improvement in the demand for lumber, an increase over the year in the volume of tourist traffic, a more satisfactory balance of foreign trade, and latterly noticeable betterment in many lines of retail business are most encouraging factors in the general situation.

"He would be a bold man who would make any prophecy as to what is going to happen during the coming year. And yet I think it requires neither boldness nor second sight to justify the assumption that 1932 will, as it progresses, show marked improvement upon its predecessor.

"It is an old saying, of recent years brought much into mind, that one thing greatly to be desired is more business in government and less government in business. The period of economic stress has done more to prove the

truth of that statement than anything else could have done. I find that a large and growing number of the Canadian people are accepting that fact as being abundantly established by the course of economic events through which we are passing. Under stress of war necessities it became the government's job to supervise practically everything economic that was carried on. In many cases supervision became actual operation. The natural result was that people and institutions began to look to government for the inspiration and direction which they themselves could have given much better had they carried forward their enterprises on business principles the efficiency of which have been proven through ages of stress and strain.

"The success which attended the flotation of the National Service Loan should be as reassuring to Canadians of the sound basis upon which their economic affairs stand as it has been to the world at large. Readiness with which our people were able to absorb the new bond issue established the fact that a surprisingly large amount of Canada's wealth was in liquid form and that the Canadian people had no hesitation in placing it at the country's service. The Canadian dollar has gone considerably below par in most of the world's money markets, an effect of world conditions which carries its own remedy in that it is calculated to encourage a more favorable balance of foreign trade. It has also contributed as an inducement to the attraction of other countries to establish factories within our borders. Since August, 1930, approximately 125 new industries from Great Britain and the United States have been organized or are now in the process of organization.

"Ultimate results following up on the recent British elections are likely to be far-reaching in their relation to Canadian economic affairs. Important extension of our trade with Great Britain seems assured, and it may be expected that the holding of the forthcoming Imperial Conference in London will profoundly influence the course of Canadian economics over the next few years. The Empire will be brought to a new realization of what Canada has to offer in the way of natural resources and opportunity for profitable investment, and the country will step once again into the forefront as a land toward which the most desirable class of immigration and settlement should properly flow.

Church Services.

Sunday, Feb. 21, there will be Lutheran services at St. Matthew Schoolhouse at 7.30 p.m., by Rev. H. Kuring.

Obituary

The death occurred last week of another oldtimer of Stony Plain district in the person of Mr. Louie Groff. Louie passed away January 19, after suffering for some time from cancer of the stomach.

Deceased was born in Poland in July 1867 and came to Canada in the year 1908 and settled in this district, where he had resided up to the time of his demise.

The funeral took place on Thurs. Jan. 21. Services were held at the residence of Mr. John Lutz, and also at the graveside, Rev. E. Eberhardt officiating. Interment was made in St. Matthew's churchyard.

Deceased was unmarried. He is survived by one brother Wm. Groff of Golden Spike, and five sisters.
